

# Asbestos register template

This template is to help you produce your own register or review an existing one.

Follow the guidance at: [www.hse.gov.uk/asbestos/duty/register-and-assess-risk.htm](http://www.hse.gov.uk/asbestos/duty/register-and-assess-risk.htm) and find out how to score potential for fibre release at [www.hse.gov.uk/pubns/books/hsg227.htm](http://www.hse.gov.uk/pubns/books/hsg227.htm). The HSE website has examples of a completed asbestos register and site plan. The information in the survey report should be used to form your asbestos register, which is a key part of your asbestos management plan.

| Location | Product and asbestos type  | Extent | Condition | Surface treatment | Sampled/ Presumed/ Strongly presumed | Potential to release fibres – material assessment score | Potential for disturbance – priority assessment score | Risk assessment – total score | Action and due date | Action comment and completion date | Other management actions |
|----------|--|--------|-----------|-------------------|--------------------------------------|---|---|-------------------------------|---------------------|------------------------------------|--------------------------|
|          |  |        |           |                   |                                      |   |   |                               |                     |                                    |                          |
|          | Insert photo of the ACM so it can be located and any changes in condition assessed |        |           |                   |                                      |   |   |                               |                     |                                    |                          |
